Real Stories, Real Results

WE HAVE YOUR BACK!

“The benefits of being a part of my union have made a significant difference in my work life, providing me with greater job security and a clear understanding of my rights as a state worker. I’ve seen firsthand how valuable this support is— whether it was helping me navigate challenges with a bad boss or giving me the confidence to stand up for others. Beyond that, my union has opened my eyes to why politics matter and how they directly impact state workers and our contract. Learning about the power of collective bargaining has been truly eyeopening. It’s empowering to know I’m not alone and that, together, we have a voice that makes a real difference.”

Krystal C.

*Department of Housing and
Community Development (HCD)*

“Over the years, as new management has come and gone, one major victory our union secured—and one that has withstood every change—is protecting our right to use sick leave without unnecessary obstacles. Through a grievance, we ensured that management follows the MOU, requiring doctor’s notes only when appropriate. By holding them accountable to the contract, we’ve safeguarded this important benefit for all members, proving that when we stand together, we can protect our rights and improve our working conditions. It’s a reminder of why having a strong union matters.”

Rehabilitation (CDCR)*

“Being a steward means actively advocating for RNs at my worksite by pushing for policy changes that improve working conditions and uphold the contract. This involvement ensures that nurses’ voices are heard, leading to fairer policies that support their well-being and professional standards.

By enforcing the contract, stewards help protect nurses’ rights, address workplace issues, and strengthen unity among staff.

This not only benefits nurses but also enhances patient care and workplace morale. I encourage more RNs to get involved, educate themselves on their rights, and take an active role in advocating for better wages, benefits, retirement, and workplace conditions—all protected by the contract we fought for together. When we stand united, we all win.”

are **12.9% higher** compared to non-union counterparts. California union members take home an average **\$5,800 more** more per year.³
